

The Inked Army® OXXOLON

Tattoo needle cleaner

Concentrate

Product name: The Inked Army® OXXOLON (Tattoo needle cleaner)

Product name: **The Inked Army® OXXOLON**

PH value: Neutral to mild alkaline

Containers: Canister 0.25-L / 1-L / 25-L

Short description

OXXOLON is a very strong special cleaner for all colours and water-soluble paints in the tattoo area. **OXXOLON** gently cleans all tattoo needles without any residue. The product is sterile.

Characteristics

OXXOLON is a neutral to light alkaline special cleaner without surfactants. A low proportion of ethanol (<10%) ensures relatively slight evaporation. **OXXOLON** has a soft clove smell. The product can be diluted to 1:5.

Application areas

OXXOLON is ideal for cleaning all colours found in the tattoo artist's environment and is used with a dilution of up to 1:5 (20 ml **OXXOLON** per 100 ml of water). It has a fresh, pleasant smell of cloves.

Yield

OXXOLON is a very efficient cleaner. 20 ml of the cleaner added with 100 ml of water in a cup can be used to clean your tattoo needles in no time. Even black ink is cleaned residue-free, and you can work with white ink immediately afterwards.

Labelling identification

No labelling requirements!

Ingredients

Ingredients acc. EC 648/2004:
AQUA, ETHANOL, CITRATE, GLYCERINE,
AUXILIARIES, PERFUME
POTASSIUM

Preservation:

Note

OXXOLON contains no ingredients subject to labelling requirements. It should be cared for as per usual with chemicals. **OXXOLON** is **readily biodegradable** (OECD301).
