

RinseCup CleanUp

Hazard Identification

RinseCup CleanUp is a white, granular polymer that yields a gel-like material with the addition of water. It is insoluble in water and causes extremely slippery conditions when wet.

Potential Health Effects

EYES: Dust may cause burning, drying, itching and other discomfort, resulting in reddening of the eyes.

SKIN: Exposure to the dust, such as in manufacturing, may exasperate existing skin conditions due to drying effect.

INGESTION: DO NOT INGEST! Although not a likely route of entry, tests have shown that this product is NON-TOXIC if ingested. However, as in any instance of non-food consumption, seek medical attention in the event of any adverse symptoms.

INHALATION: Exposure to respirable dust may cause respiratory tract and lung irritation and may exasperate existing respiratory conditions.

HMIS RATINGS:

Health: 1

Fire: 0

Reactivity: 0

NFPA RATINGS:

Health: 1

Fire: 0

Reactivity: 0

First Aid Measures

EYES: Immediately flush eyes with plenty of water for at least 15 minutes.

SKIN: Remove RinseCup CleanUp dust from skin using soap and water.

INGESTION: NON-TOXIC by ingestion. However, if adverse symptoms appear, seek medical attention.

INHALATION: If inhaled, move to source of fresh air. Seek medical attention if symptoms persist.

— — —

RinseCup CleanUp is not regulated as a hazardous material throughout the United States.

This product is chemically stable and has no known incompatibilities.

RinseCup CleanUp is NON-TOXIC to aquatic or terrestrial organisms.
